LOUISIANA'S VOTE BY PARISHES.

Showing a Democratic Majority of Nearly Ten Thousand.

FLORIDA CLAIMED SURE FOR TILDEN

North Carolina Democratic by Eighteen Thousand Majority.

We have received no returns of Tuesday's election since Thursday that warrant us in making any change in the table of electoral votes printed in yesterday's SUN. On the contrary, the tenor of our special telegrams and the despatches received by the Associated Press make it still more probable that Tilden has carried the States of Louisiana, South Carolina and Fiorida, and will receive more than enough electoral votes to make him the next President of the United States. Our table, therefore, will stand as follows for another day:

Republican majorities.—Bossier, 500; Caddo, 1.100; and Concerdia, 2.151.
Twenty-five prishes show a Democratic gain over the vote of 1874 of between 9,000 and 10,000.

THE MAJORITIES BY PARISHES. The following dispatch was received at Democratic headquarters last evening:

New ORLEANS, Nov. 10th.
W. T. PELTON: This State has undoubtedly
gone for Tilden, by a m. Jority, it may be of
10,000, but certainly not less than 5,000 or 6,000.
Statements to the contrary are made—fabrications as I think—to prepare the way for fruid.
There are fifty seven parishes in this State, and
we have had by telegrams or letters statements
of the official majorities in the following

bills, telegraphed this committee by relia-rities. They are, in fact, telegraphic re-of the actual votes cast and counted. The ring parishes have been heard from by afficial information, which is considered

s: Democratic-East Baton Rouge, 600; Catahouia, D. Grant, 150; Washington, 350; total, 1,250. Republican-West Baton Rouge, 400; Bossier, 900; ddo, 1,100; Kenville, 1,500; Maulson, 2,100; Rannies, ; St. Martin's, 150; Jefferson, 1,300. Total, 7,550. Republican—West Raton Rouge, 450; Roseier, 900; Caddo, Lioui Kenyhe, Lioui Manisos, 2100; Rachides, 200; St. Martine, 130; Jefferson, 1300. Total, 7,550.

Those figures give the Republicans in all probability 2,000 more than they can possibly expect. They show our maionity as 4,645, leaving five parishes to hear from, which gave Democratic majorities in 1874, as follows: Caldwell, 140; Cameron, 150; Lafourche, 60; Livingston, 570; St. Landray, 1889—total, 2835. This added to our accertained majority, rives us 7,487. The parishes last mentioned may be quite re sonably expected to do better for us than in 1874. They cannot do worse, and have not so done by imformation from many hands. The figures given throughout are the first possible for us, and will be bettered by the actual returns. We fear the Republicans contemplate fraud, because, first the returning boards notoriously defrauded us in 1872 and in 1874, as may be seen by the Wheeler investigation. The present board is composed, as it was in 1874, one member being a defeated candidate for the Senate at this election, another a Custom House officer who was appointed Surveyor limediately after the Returning Board frauds of 1874, and the two other colored men and ponounced partisans, there being one vacancy. Third, Mr. Kellogg, has openly said that the frauds of East and West Indiana, Easton. Baton Rouge, Morehouse, and Omachita should be thrown out; and is also reported in the public prints to have said that the President of the United States has determined that they shall not be counted. Fourth, we learn from all sides of attempts to change the result at the poils by chicanery, by refusal or delay to count, and other tricks; by their Commissioners absenting themselves from their offices to avoid delivery within the time fixed by law and by the Supervisors of registration, whose duty it is to receive the returns within twenty-four hours after the close of the election sheating all with the view of the galay registration and the other to the Supervisor of Regis

SOUTH CAROLINA.

CHARLESTON, Nov. 10 .- This county gives the Republicans 6.214 majority. Nearly all the countles heard from, officially or unofficially, give Ham, ton (Dem.) for Governor 1,213 ma jority. The Democratic Presidential ticket is is believed that Tilden will not fall more than 400 or 500 behind Hampton. It does not appear possible for the Republicans to overcome the figures above given from the counties not officially heard from.

Later,—Inc latest revision of the returns by the News and Courier gives South Carolina, beyond all dout, to Tidon and Hampton by over 1,200 majority.

Charleston, Nov. 10.—The News and Courier has received acrices from the last of the countries hitherto reported unofficially, making Hampton's majority for Governor 1,434. Filden's majority may fall two or three hundred behind Hampton's, but it is certainly over 1,000.

DESPATCHES FROM PARTISAN SOURCES. DESPATCHES FROM PARTISAN SOURCES.

To Ecening Post, New York,
South Carolina is saic for the Republicans. The
Democrats claim the State on the basis of heavy reported majorities in three or four counties where the
Republicans have hereoforer had large majorities. If a
Democratic majority appear on the face of the returns
they are fraudulent, and the result of the grossest terroriem. But conceding the Democrats all they claim in
the counties not definitely seared train, and giving the
Republicans only what we know, we have as the result
a small majority for the Required.as. The final honest
official result cannot, in our best judgment, fall below
tight thousand Republican majority.

There for the horizontal committee claim election of Hampton by 1,230, and Their out it to echind. Therefore, and cannon firing for two but it to echind. Therefore, and there exists the committee of the committee of the publican, one Democratic. From both we have perfectly rollade information; the returns and these estimates give us clear majority of at least 1,230. We have proof of fraud and intimidations in the sea coast counties, which are largely Republican. We do not fear fraud in the Board of S ate Canvassers, nearly every one of these are candid tes voted for in the returns they canvass. The Republican reports sent North are mere estimates studiously knoring the official returns, althous these are made by boards in which their party have a majority, and are evidently intended to prepare for fraudulent action of the State Board of Canvassers. C. H. Simonton, Chairman Democratic Executive Committee.

NORTH CAROLINA.

WILMINGTON, Nov. 10 .- The excitement here to-day over the present aspect of the Presithe day of the election has there been anything to approximate the deep fe ling manifested to approximate the deep fe ling manifested this afternoon. The Democrats claim that ill den has been honestly elected, and if there is to be any trouble over the matter the people of the North must decide the question. Resublicans generally sustain the action of the President.

RALEIGH, Nov. 10.—North Curolina goes for Tilden by at least 18.00 majority. Vance runs behind this about 3.000. There are large Democratic gains all over the State. The Legislature will be over two-thirds Democratic. The Congressional delegation remains the same, seven out of eight Democratic. The chances are that fiden's majority will nearly approach 20.000. All prominent Republicans here conceded the State to Tilden on Wednesday night. They are a very blue looking set. Klipatrick went back to Washington tills morning satisfied that the State was beyond Republican trickery. The feeling acre ran high against him, as it was generally believed that he came to lay plans to falsify the election returns. The people here are wild with entausiasm for Tilden, Hendricks, and Vance. and Vance.

LIFE INSURANCE FIGURES.

Some Inside Statistics that are of Great Interest to Everybody. A careful examination of the official life insurance records shows a number of interesting and some startling facts, which, if understood, would be more potent than hours of argument, and more effective than all the romanc-

stance, it is generally supposed that there are scores of life insurance companies in New York city and State; but there are only twenty all jority in Luzerne county, according to the official count, is 3,475. Livingstone Surrogate-S. B. Chittenden or

Gen. Dakin in Contest. In going over the election returns in Brooklyn yasterd sy it was discovered by Messrs. Folk and Jewett that errors had been made in telegraphing the figures on election night, and elect, instead of A. H. Dailey, the Democratic cominee. In the city the total vote was: Livngstone, 44,301; Dailey, 42,891. The majority of Livingstone in the city was supposed to be more toan offset by the majority for Dailey in the county, which on the completed returns appears as 1,280. The error in the transmission of the Fourteenth Ward figures on being rectified makes Livingstone's majority in the city 1.210, and consequently his majority over Dailey 130. Gen. Dakin has retained coursel to collect testimony with a view to contesting the election of S. B. Chittenden to Congress in the Third Congressional District. He feels satisfied of his election by the popular vote. Mr. Chittenden announced that he expected a majority of 5.500. The feen-trails friends contend that there was fraud in the Eleventh, Thirteenth, Seventh, and Twentieth Wards, and they think that he has a majority of 1.000 over Mr. Chittenden.

Alderman Rowley (Rep.) contends that he was defeated in the Seventh Ward by colonized voters. He talks of contesting the election of Mr. Fred. Philips.

Mr. Dailey gave up all hope of the Surrogateship on the cany-as of the figures yesterday, in which he participated. One of the officers in charge of the returns went over the figures again last night, and figured out Mr. Dailey as elected by 352 majority. The figures are carefully verified, and the dispute can only be decided by the official canvass of the Board of Supervisors. Fourteenth Ward figures on being rectified

election returns, and early yesterday forenoon the multitudes began to assemble in Park row, and in Printing House square. Still, as on Thursday, the bulletin boards of the representative newspapers contradicted each other, for until about 10 o'clock the old bulletins of the night before yet held their place. At about 11 o'clock the SUN and the Herald displayed the Associated Press despatch announcing that Fiorida had given a majority of 1,700 for Tilden. A little later another and professedly closer report of the completed canvass, giving Florida to the Democracy by 1,638, was bulletined. Each announcement was hailed with enthusiastic cheers by the thousands of men who stood in front of the offices named. The Times, rising to the necessities of the occasion, flung out a builetin claiming Florida for the Republicans by a majority of 7,000, South Carolina for the Republi-cans by 6,000, and Louisiana also for the Repub-

House.

In the Democratic Committee's headquarters, last evening the Committee said: "There is no question but we have carried both Louisiana and Florida. South Carolina is claimed with a show of reason by the Republicans. We think still that we have carried the State by a small majority, say 200 or 300. A committee of prominent gentlemen from both parties will start to-night to see that no frauds are committed in the counting of returns either in Louisiana or in Florida."

Four or five hundred men assembled at the Fifth Avenue Hotel iask evening, but there was little or no excitement, they were simply waiting for news. Occasionally the big stereorticon opposite displayed a bulletin showing a Democratic gain, and it was received with cheers, but there were very few bulletins of any kind. A cordon of police kept the sidewalk clear in front of the hotel.

At the Everett House a goodly multitude assembled, and despite the rain stood their ground until a late hour. They were confident of victory, and only waiting to hear it officially announced. of victory, and only waiting to hear it officially announced.

Complaint is made of the stagnation produced in business circles by the excitement attending the suspense. Many branches of legitimate business are said to be at a stand-still, and there is little inclination to indulge in large ventures, owing to the unsettled condition of affairs. The week with many has been almost entirely lost, and commercial transactions will be found to be fewer than those of any other seven days three summer.

The Hon. Abram S. Hewitt was sure last night that the Democrats had real and decided majorities in South Caroling. Louisiana, and Florida. All he feared was that the Democrats might be cheated by fraudulent returns, and counts of ballots. It was this apprehension of fraud, especially in regard to the returns in Louisiana, that had led him to request a number of Northern gentlemen to go to New Orleans, and see that the returns are made fairly and honestly.

To Col. J. Daniel, J. H. Pane, Esq., and J. M. Baker, Esq.:

DEAR SIRS: The election here yesterday was a disgrace to our civilization. Our challengers were excluded from the poli rooms, notwithstanding a written agreement to admit them, and they were unable to hold their positions under the window. Six hundred more votes were cast than there were voters in the county by the official and our party canvass, which do not materially disagree. They overrun us with fraudulent votes, while our challengers were excluded. Intimidation was practised to such an extent as to deter our colored Democrata from voting with us. The women were the worst. Will send you some astounding details when I have time to write.

Yours very truly, S. Pasco.

In this county and elsewhere the jails were opened and the inmates brought to the polis

opened and the inmates brought to the polls and voted solid Republican. Notwithstanding these and smilar acts. Florida has gone Demo-cratic on both State and national tickets. Noth-ing but gross frauds in the canauss can deprive us of the result. The latest returns strengthen this conviction.

THE CRISIS IN LOUISIANA.

SHALL THE VOTE OF THE PEOPLE BE HONESTLY COUNTED?

Influential Men of the Nation Requested to Exercise their Moral Power for Peace where a Serious Outbreak is Imminent.

The National Democratic Committee number of leading public men in the Northern States: Citizens of New Orleans urgently request that &

delegation of prominent gentlemen come there at once to counsel peace and a fair and honest return. You are earnestly requested to be one of ten or fifteen gentlemen, all widely known, to meet at Louisville, Gait House, on Saturday evening, proceeding direct South; or, if more convenient, meeting at 8t. Charles Hotel, New Orleans, on Monday morning. Your prompt acceptance by telegraph is requested. This emergency appeals to your patriotism. ABRAM S. HEWITT, Chairman,

In reply the following named gentlemen have telegraphed that they will go immediately to New Orleans: Senator Lyman Trumbull, Ill. Gov. J. M. Palmer, Ill.; Senator Hamilton, Ind.; Senator J. R. Doolittle, Wis.; ex-Gov. Cool-baugh, Chicago; J. B. Stallo, Cincinnati; Oswald Ottendorfer, N. Y.; Henry Watterson, Ky.; ex-Gov. Randolph, N. J.; ex-Gov. Smith, Wis.; Gov. Carroll, Md.; Prof. Sumner, Yale College; ex-Secretary Navy G. V. Fox, Conn.; the Hon. S. J. Randall, Penn.; ex-Gov. Bigler, Penn.; the Hon.

Robert McLean, Md.

Zach Chandler engaged a room in the third story of the Fifth Avenue Hotel yesterday, and intended to stay there last night, but early in the evening he received a telegram from Washin regard to the Presidential election is un-abated. All day long crowds have flocked to not wait for his trunk, but hurried into a coach, a small vallse was thrown into the vehicle after him, and he was driven to the Jersey City ferry to cross to the Pennsylvania Railroad station.

A leading member of the Manhattan Ciub said last evening, "There has been some very earnest talk to-day about an indignation meeting to give expression to the feeling of the people concerning the suppression of the election returns from Louisiana and South Carolina, and the wellfrom Louisian and South Carolina, and the well-grounded belief, generally entertained, that that suppression is for the purpose of aiding a stupendous and outrageous fraud. Upon ma-ture consideration, however, it has been de-termined to postpone such a demonstration until we are positive that it is warranted by the facts.

until we are positive that it is warranted by the facts.

"The gentlemen who have been invited to go South, to ascertain the actual condition of affairs and learn whether our fears are well founded, will let us know immediately what are the results of their investigations. Some of them—most of them—are already on their way. All the others who can go will start as quickly as possible. Should it prove true that the will of the people has been set at naught by a corrupt system for the maintenance in power of an unprincipled league of officeholders, then, in such a meeting as that proposed, we are well assured very many honest leading Republicans and the true men of the masses in that party will join with us heartily in denunciation of the outrage. Indeed, prominent Republicans have visited our headquarters to-day and said as much, frankly and openly."

Louisville, Nov. 10.—The report that Senator Beck, Henry Watterson, and others have gone to New Orleans is premature. Mr. Watterson is still in this city, and in reply to inquiries says if the persons named should go to New Orleans, they would go in the interest of peace and order, proposing to exert their influence as far as possible over the excited masses now collected in that city. They could do no mere in any event than to inform themselves personally. Mr. Watterson expresses the opinion that it will be eminently proper for Gov. Hayes and Gov. Iliden, jointly and by agreement, to send barties of friends to New Orleans, headed respectively by Charles Francis Adams and William M. Evarts, and composed of conservative men who have the confidence of the country. He thinks that such an errangement may secure a fair count of the votes and satisfy the whole people, averting a most dangerous issue and perhaps an outburst of violence.

Chicago, Nov. 10.—Gen. John M. Corse, Chairman of the Pirst District Democratic Congressional Committee, started for Louisana that prominent men should go from the North to Inspect the counting of the votes in that State, the President has

GRANI'S ORDER CRITICIZED.

What a Cincinnati Newspaper Says About Counting Ballots with Bayonets. CINCINNATI, Nov. 10 .- The evening edition of the Enquirer contains the following editorial article on the President's order:

editorial article on the President's order:

It is the crowning act of the Presidential usurpation. It is a cerfession that even with the lawless aid of the army, the Republican party has been unable to carry the election, and now the entire military forces of the United States, headed by their General, are directed by the President to march upon the Southern States they have lost, to take possession of the bellet between the vote. This high-handed outrage is an admission that the States of Louisiana and Florida are lost to the Republican party, and an advertisement is issued that the bayonet shall not only east but count the vote. This action is not only highly inflammatory but revolutionary. The American people love fair play, if these States are counted out forcibly by Returning Boards backed by the army, there is commotion ahead.
